

Dear LANDPATHS team and followers,

Activities are progressing well in all sub-projects (SP) of the LANDPATHS research programme and we have lots of different news to share with you in this newsletter.

Miljömålsdagarna

The County Administrative Boards' annual conference Miljömålsdagarna (The Environmental Goals Days) took place on 27-28 September 2023 in Borlänge with the theme "Landscapes equipped for the future". LANDPATHS researchers helped to plan the content of the event and seven of us attended. Neil Powell (SP2), Lucas Dawson (SP3), Mikael Karlsson (SP4), Sara Holmgren (SP5) and Tuija Hilding-Rydevik (SP6) facilitated and/or acted as discussants in sessions on new business models for forestry, transitions in food systems, nature-based solutions and planning, and communication between actors. The conference was an excellent opportunity for researchers to meet a wide range of people working on themes relevant to LANDPATHS.

LANDPATHS retreat in Häverö

LOOKING BACK AND PLANNING FORWARDS

In November 2023, the LANDPATHS team gathered for a two-day workshop at Häverö Kursgard near Hallstavik. This was a chance for us to share and reflect on what we have learned so far, and plan the next stages of the research.

In a programme as large as LANDPATHS, these types of meetings are vital to ensure coherence and co-production within and across. [Read here](#) about the retreat and its activities.

Latest new members

Magnus Florin has joined the Future imaginaries subproject (SP2) as a research assistant

Amalia Engström has joined the Forest landscape subproject (SP5) as a researcher

Lots going on i Voxnadalen

LANDPATHS CASE STUDY IN THE BIOSPHERE RESERVE

During fall 2023 LANDPATHS researchers ran workshops and interviews in the Voxnadalen biosphere with the aim to bring a wide range of stakeholders together to talk about their visions of multifunctional forest landscapes. Read more [here](#)

[LISTEN TO AN INTERVIEW ABOUT THE VOXNADALEN STUDY AND FUTURE VISIONS FOR MULTIFUNCTIONAL FOREST LANDSCAPES](#)

[DELIBERATIVE MINI-PUBLICS IN THE VOXNADALEN BIOSPHERE COMING IN 2024](#)

Beyond crisis/beyond normal conference

LANDPATHS PHD STUDENTS TRAVEL TO NORWAY

Frida Öhman and Fanny Möckel participated in the Beyond Crisis/Beyond normal conference arranged by the Norwegian University of Science and Technology (NTNU) in Trondheim. You can read more about their experiences at [the conference here](#).

Conflicts in mountainous forest landscapes

PER SANDSTRÖM PRESENTS AT JOKKMOKKS MARKET

Per Sandström, leader of subproject mountain landscapes (SP9), gave a talk on the interaction and activities of different actors in the mountainous forest landscape at Jokkmokks market. About 100 people attended the event, including locals, reindeer herders, foresters, people from agencies and NGOs, local and international politicians, SVT Norrbotten, SR Sameradien. [SVT reported about the event](#).

Upcoming conferences

Two workshops will be organized by LANDPATHS researchers at the [Nordic Environmental Social Science Conference \(NESS\)](#) in Turku, Finland, June 2024.

"Promoting Collaborative Multifunctional Landscape Governance for Biodiversity" with convenors Michael Gilek (SP7), Mikael Karlsson (SP4) and Neil Powell (SP2) and

"Does what happens in a deliberative citizen assembly stay in the citizen assembly?"

Exploring the impacts of deliberative mini-publics on environmental governance" with convenors Tim Daw and Fanny Möckel (SP3) and colleagues from Åbo Akademi and TU Darmstadt.

Amalia Engström and Sara Holmgren (SP5) plan to attend the [Permanent European Conference for the Study of the Rural Landscape](#) in Poland in September 2024

SP3 researchers have been accepted to the [Political Ecology Network conference \(POLLEN24\)](#) in Lund in June 2024
