

NEWSLETTER #1 · MAY 2023

Dear LANDPATHS team,

This is the first of our regular newsletters with information about our research programme, links to recent blogposts from different subprojects and tips about upcoming conferences. We aim to send out a newsletter once every one to two months depending on ongoing activities. We are always welcoming content tips for our [webpage](#), [Twitter channel](#) and upcoming newsletters. Please email [landpaths@geo.uu.se](mailto:landpaths@geo.uu.se) (managed by Jayne and Judith) with whatever tips you would like to share.

## Sites for case studies chosen

Several SPs have chosen sites for case studies. SP2 (Future Imaginaries) and SP5 (Forest Landscapes) will be working with the Voxnadalen biosphere in Hälsingland. SP7 researchers (Marine and Coastal Landscapes) have picked Nämdö archipelago close to Stockholm as one of their case study sites and discussed collaboration with SP3 (Barriers and Opportunities for Change). SP3b has been exploring options for citizen deliberation in Nämdö and Voxnadalen. SP8 (Urban Landscapes) and SP2 have selected Årike Fyris in Uppsala for their analyses. SP9 (Mountain Landscapes) focuses on "the Greater Laponia" for data collection on historical and current land use.

## New on our blog

### VOXNADALEN & NÄMDÖ

Read about the Voxnadalen biosphere in a blogpost by Sara Hellgren, and the visit of SP3 and SP7s to Nämdö archipelago, summarized by Charles Westerberg.

#### LANDPATHS GETS UNDERWAY IN THE VOXNADALEN BIOSPHERE

#### NÄMDÖ ARCHIPELAGO – A NEW SWEDISH BIOSPHERE RESERVE ?

## Upcoming conferences

Researchers of SP1/3 and SP4 have been accepted to Beyond crises – Beyond normal. A social science and humanities conference on sustainability 27-28 September 2023, Trondheim, Norway

SP4 is arranging a workshop at International Congress for Conservation Biology – the Future is Now, Sustaining Biodiversity for Today and Tomorrow, 23-27 July 2023, Kigali, Rwanda

## Miljömålsdagarna

### IN BORLÄNGE

The County Administrative Board's conference Miljömålsdagarna will take place on 27-28 September 2023 in Borlänge. This year the conference will focus on major and rapid steps that we need to take to manage the climate transition and lay a foundation for achieving the other environmental goals. LANDPATHS will help organizing some sessions at the conference.
